INTRODUCING *the* 2022

Cruiser lineup

Authentic heritage meets modern technology for power, style, and the unadulterated riding experience – around town or along country roads.

**Fat Bob® 114 shown with H-D® Genuine Motor Parts & Accessories*

CLICK
To learn more

Softail® Standard

Raw, stripped-down bobber style. A blank canvas for customisation. Comes with Annihilator cast aluminum wheels with silver finish.

Street Bob® 114

A gritty, stripped-down bobber cloaked in red. A perfect performance base for personalisation.

Fat Bob® 114

A street-eater with an appetite for power. Built with muscular style and performance.

Heritage Classic 114

The quintessential American cruiser. Show stopping vintage details and pure rock and roll style. A new chrome trim option now available.

Fat Boy® 114

The original fat-custom icon commands the road with a steamroller stance.

Sport Glide®

An aggressive combination of cruising agility and long-distance touring.

Breakout®

Long, lean and mean. A muscular modern chopper that turns heads.

Low Rider® S

An aggressive performance kingpin designed for the rider willing to push it to the limit. The Milwaukee-Eight 117 powertrain gives this motorcycle owner instant bragging rights. Straight from the factory, this bike bundles big attitude and unrelenting performance.

INTRODUCING *the* 2022

Sport lineup

A category defined for so long by the venerable Sportster® S is now enhanced with the new Nightster™. With their iconic designs, authentic sound and astonishing handling, these are bikes built for blasting through city streets as well as carving mountain roads. Urban machines with head-turning power and agile responsiveness. Vehicles of choice for riders seeking life-changing experiences. This is more than just riding, it's a way of being.

THE NEXT CHAPTER OF OUR SPORTSTER™ LEGACY BEGINS NOW.

*Sportster® S shown with H-D® Genuine Motor Parts & Accessories

CLICK
To learn more

Sportster® S

Designed to deliver a riding experience rooted in the thrill of unleashing extraordinary power in the act of dynamic acceleration, tempered by invisible technology. Stop light to stop light, corner to corner — on-demand torque produces an unrelenting, exhilarating blast of thrust and adrenaline.

Evolution® becomes Revolution®

Now driven by the stunning Revolution® Max V-twin engine, the Sportster® line is set to continue turning heads and winning hearts for generations to come. More powerful, more nimble, more technologically advanced than anything that's come before, the Sportster® S honours and builds upon its incredible history.

Sportster® S features

Designed to thrill. The 2022 Sportster® S is powered by the all-new Revolution® Max, a liquid-cooled powertrain with double overhead camshafts and variable valve timing: offering ample torque and an immediate powerband tuned to maximise rider enjoyment. Prepare for power and performance like you've never experienced.

DUAL PURPOSE POWERTRAIN

The Revolution® Max 1250T is a structural component of the motorcycle chassis, eliminating a traditional frame — which significantly reduces overall weight and keeps handling taut. This is performance you can feel, with the centre of gravity low and the chassis super rigid.

ALL-NEW REVOLUTION® MAX 1250T

The next chapter in a century of legendary V-Twins is here. Revolution® Max is a liquid-cooled powertrain with double overhead camshafts and variable valve timing: full of ample torque, and a surging powerband tuned to maximise rider control.

2-INTO-1-INTO-2 HIGH MOUNT EXHAUST

Inspired by the glory days of H-D flat-track racing, the pipes are crafted from corrosion-resistant 304-series stainless steel and engineered to deflect exhaust heat away from the rider's legs and tail section.

STANDARD CORNERING RIDER SAFETY ENHANCEMENTS INCLUDING ABS AND TRACTION CONTROL

The Sportster® S model is equipped with Cornering Rider Safety Enhancements, a collection of technologies designed to enhance rider confidence during unexpected situations or adverse road conditions. Cornering Rider Safety Enhancements are designed to match motorcycle performance to available traction during acceleration, deceleration, and braking in a straight line or while in a turn.

Highlights

- All-new Revolution® Max 1250 T engine
- Engine serves as stressed member, reducing weight and improving handling
- Aggressive styling speaks to flat tracking heritage
- Low centre of gravity
- Cornering traction control
- Cornering ABS
- High-mount exhaust
- Host of parts and accessories available to make Sportster S your own

Please check with your local dealer for complete product details and the latest information.

Nightster™

The Nightster™ is a machine born from an icon of yesterday evolved for the riders of today. A motorcycle rooted in a Harley-Davidson's legacy of authenticity and strength, and the ultimate tool for riders who are seeking to push through new barriers and experience a machine that reminds us that we're still alive.

Instrument of expression

The next chapter the H-D® Sportster™ legacy begins with the Nightster™. A rumbling canvas for riders with confidence in who they are and purpose in what they seek. Shaped by 65 years of Sportster® lineage, the Nightster™ features a classic Sportster® silhouette, solo seat, chopped fenders and exposed dual rear shocks.

Nightster™ features

The Nightster™ combines a lightweight chassis with the power of the Revolution® Max 975T engine. It's a machine that delivers strong low-range torque in a light and nimble package to deliver a depth that goes beyond form and function, creating an emotion that comes only through time.

REVOLUTION® MAX 975T ENGINE

Nightster™ is powered by the Revolution® Max 975T engine, a liquid-cooled V-Twin tuned to make tremendous torque at low RPM.

FRAME

Instead of a traditional hoop-style frame, Nightster™ uses the powertrain as a stressed member, significantly reducing the motorcycle's weight and resulting in a very stiff chassis.

ANALOG SPEEDOMETER

Round 4.0-inch-diameter analog speedometer with an inset multifunction LCD display.

EXPOSED DUAL REAR SHOCKS

The exposed dual rear shocks are a deliberate styling element, intended to reference the previous Sportster® chassis and to provide a critical style line at the rear of the motorcycle.

Highlights

- All-new Revolution® Max 975T engine
- Engine serves as stressed member, reducing weight and improving handling
- Aggressive styling speaks to flat tracking heritage
- Low centre of gravity
- Cornering traction control
- Cornering ABS
- High-mount exhaust
- Host of parts and accessories available to make Nightster™ your own

Please check with your local dealer for complete product details and the latest information.

Sport pricing

With revolutionary steps forward in engine, chassis, performance and tech. The Sportster® S provides the kind of motorcycling experience that only Harley® can deliver. The Nightster™ is the ultimate tool for riders seeking to experience a machine that's been shaped by 65 years of Sportster® lineage. Interested? Of course you are. These are the bikes you've been dreaming about.

Nightster™ 975	Vivid Black	€ 16,995

INTRODUCING *the* 2022

Adventure Touring lineup

Where touring becomes detouring, and everything is a road.

*Pan America™ 1250 shown with H-D® Genuine Motor Parts & Accessories

CLICK
To learn more

Pan America™ 1250

The Pan America™ 1250 is a two-wheel multi-tool built to endure, designed to explore, and engineered for adventure.

**Pan America™ 1250 shown with H-D® Genuine Motor Parts & Accessories*

Pan America™ 1250 S

We're calling it Special for good reason. The Pan America™ 1250 S is loaded with premium features including an aluminum skid plate, brush guards, steering damper, no-tool-needed adjustable brake pedal, and semi-active front and rear suspension.

Pan America™ 1250 features

H-D design and engineering teams have crafted a vision guided by utility, rooted in the spirit of iconic American off-road vehicles. In a landscape of bikes that are achieving uniformity, Pan America™ is a rugged take where function feeds form in a package that is uniquely Harley-Davidson®.

ALL-NEW ENGINE: Pan America™ 1250 and Pan America™ 1250 Special models are powered by an all-new 150hp Revolution® Max 1250 engine – a liquid-cooled 1,252cc V-Twin designed to offer a broad powerband that builds to a rush of high-RPM power.

OPTIMISED CHASSIS: the “frame” comprises of a front frame, mid frame and the tail section which bolt directly to the Revolution® Max 1250 engine, which acts as a stressed member. This design reduces motorcycle weight and results in a stiff, precise handling. A cast-aluminium swingarm minimises unsprung weight and aids responsive handling.

CAST ALUMINUM WHEELS: 19-inch front and 17-inch rear – designed to be strong and light for use on open roads and un-paved surfaces, such as gravel roads and fire roads.

BREMBO® BRAKING: new radial Brembo monobloc four-piston (30mm) calipers with dual 320mm front brake rotors deliver progressive stopping power and feel to the rider. The rear-brake rotor is 280mm diameter. A new lightweight front brake master cylinder offers adjustable lever response.

TOUCHSCREEN DISPLAY: the instrumentation and infotainment functions are displayed on a tilting 6.8-inch TFT (thin-film-transistor) touchscreen, a colour display noted for high image quality and contrast. The display supports infotainment generated by the rider's Bluetooth-equipped mobile device, including music and calls. Navigation is supplied by the free Harley-Davidson® App for iOS or Android.

RIDER SAFETY ENHANCEMENTS: elements of Cornering Rider Safety Enhancements include Cornering Enhanced Electronically Linked Braking, Cornering Enhanced Antilock

Braking System, Cornering Enhanced Traction Control System, Cornering Enhanced Drag-Torque Slip Control System, and Hill Hold Control.

RIDE MODES: selectable Ride Modes electronically control the performance characteristics of the motorcycle, and the level of technology intervention. Five modes are available on the Pan America™ 1250 (four pre-programmed and one can be customised). The Pan America™ 1250 Special model has two additional custom modes. Pre-programmed ride modes for the Pan America 1250 models include Road, Sport, Rain, Off-Road and Off-Road Plus. The rider may use the MODE button on the right-hand controller to change the active ride mode while riding or when stopped.

MAXIMUM RANGE: a lightweight aluminium fuel tank holds 21.2-litres for extended riding range.

LIGHTING: all-LED lighting delivers signature style and outstanding performance with additional focus on rugged durability in the off-road environment. The Daymaker® Signature LED headlamp was designed using new photometric analysis technology to produce outstanding “punch” down the road with a very homogenous spread of light.

RIDER COMFORT: The all rider portion of the seat has a high and low position to achieve a connected fit on the motorcycle. Seat height adjustment does not require tools. A four-position windscreen can be adjusted with one hand, using a lever adjacent to the display screen, through a range of 46mm to best match rider stature, preference or changing environmental conditions. Cruise control is standard equipment.

Adventure Touring pricing

This rugged, powerful and technologically advanced multi-purpose vehicle is designed for riders ready to embrace real-life adventure – riders who want to explore a variety of on and off-road routes.

INTRODUCING *the* 2022

Sport Touring lineup

Designed for weight. Designed for power. Designed for performance.
Introducing the new breed of speed from Harley-Davidson.

CLICK
To learn more

Street Glide® ST

Elevated bagger performance and style for the rider who just can't get enough. The Street Glide® ST pairs the muscular Milwaukee-Eight® 117 powertrain with West Coast styling and new bronze finishes.

Road Glide® ST

The Road Glide® ST projects more menace than ever and backs it up with the street-scorching power of the Milwaukee-Eight® 117 powertrain. West Coast styling and bronze accents set this bike apart from the performance bagger crowd.

Low Rider® ST

A sport-touring bike with a Softail® chassis and the V-Twin muscle of a Milwaukee-Eight® 117 powertrain, the Low Rider® ST is attitude on two wheels that only Harley-Davidson can supply.

Sport Touring pricing

Go the distance, in style. Discover the wide open world and freedom for the soul on bikes only Harley-Davidson® could build.

INTRODUCING *the* 2022

CVO™ lineup

Harley-Davidson® Custom Vehicle Operation™ models represent the pinnacle of H-D style and design. Built in limited numbers with the awesome power of a Milwaukee-Eight™ 117 engine, show-stopping finishes, advanced technology, exclusive components and attention to detail that borders on obsessive.

CLICK
To learn more

CVO™ Road Glide®

The CVO™ Road Glide® offers menacing style behind its distinctive dual LED headlamps, Road Glide fairing, and unrelenting Milwaukee-Eight 117® powertrain. Powerhouse audio, a 21-inch front wheel, custom paint and attention to detail completes this one-of-a-kind bike.

CVO™ Road Glide® Limited

Loaded with luxury and long-haul comfort, head-turning style and power that always satisfies. Premium audio, heated seats and grips, and the precise handling of the aerodynamic fairing make this motorcycle the ultimate Harley-Davidson® Touring machine.

CVO™ Street Glide®

A super premium hot rod bagger for the rider who rolls loud and proud. The classic batwing fairing topped with jaw-dropping paint and finish details, premium audio and the pavement-peeling power of the Milwaukee-Eight® 117 engine make this one outrageous bike.

CVO™ – Limited only by its edition

Milwaukee-Eight™ Twin-Cooled™ 117 Engine

REFLEX™ Defensive Rider Systems

Harley-Davidson® Audio powered by Rockford Fosgate® Stage II Fairing Speakers.

Boom!™ GTS Infotainment System

Harley-Davidson® Audio powered by Rockford Fosgate® Stage II Saddlebag Speakers.

Milwaukee-Eight™ Twin-Cooled™ 117 Engine
The most powerful V-Twin engine ever offered from the H-D® factory, and only available in CVO™ models. Features colour accented Rocker Box Lower with Blaze Red finish.

REFLEX™ Defensive Rider Systems
A new collection of technologies that help give you confidence and control in less-than-ideal situations. The systems utilise advanced chassis control, electronic brake control and powertrain technology to assist you with accelerating and braking in a straight line or while in a turn.

Boom!™ GTS Infotainment System
An evolved interface experience that offers a contemporary look, feel and function, with exceptional durability and features designed specifically for motorcycling. Every element is optimised to enhance the rider's interaction with the bike and connectivity with the world.

Harley-Davidson® Audio Powered by Rockford Fosgate®
Get ready to be blown away by a sonic storm. Harley-Davidson® Audio powered by Rockford Fosgate® is designed to be the new standard of motorcycle audio performance and customisation. Harley-Davidson and Rockford Fosgate® have worked together to create the highest performing, most advanced audio system riders have ever experienced. This is truly Legendary Sound from two legendary brands. Comes standard on CVO™ models.

CVO™ pricing

IMPORTANT - PLEASE READ: The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. Vehicles depicted may differ from vehicles manufactured and delivered. Specifications and prices listed may differ from specifications and prices of vehicles manufactured and delivered. All product descriptions (including depictions, specifications, dimensions, measurements, ratings, and competitive comparisons) are based on the information available at the time of publication. Although such descriptions are believed correct, errors and changes can occur, and complete accuracy cannot be guaranteed. Harley-Davidson may make changes and at any time to prices and specifications and may change or discontinue models without notice and without incurring any obligation. Attention: Vehicles in the configurations shown and many of the accessories described in this catalogue may not be available for sale or use in some locations. Please check with your dealer for complete product details and the latest information.
