KTM ADVENTURE RANGE 2022

EXPLORE THE UNKNOWN AND BEYOND

The known, the unknown, the roads and off-roads, all await you. Feed your restless spirit with these compact single-cylinder, sporty machines with the proven performance and attitude of a KTM. Inspired by the KTM 450 Rally, the KTM ADVENTURE range has adopted concepts such as versatile ergonomics and class-leading electronics, all loaded in a comfortable and lightweight package for those looking for an adventure overdose.

RIDING MODES

The 2022 KTM 390 ADVENTURE gives you the best of both worlds with riding modes - STREET and OFFROAD. The STREET mode is for the effortless long riding on the tarmac, and when the tarmac ends, you can switch to OFFROAD mode, which allows a certain rear-wheel slip so you can navigate easily through the muddy puddles or thick sand. You don't have to reset the MTC settings during unwanted stops on steep hills.
