

Rolls-Royce Motor Cars
Wraith

A STRIKING PRESENCE

Power, performance, prestige – Wraith is the most powerful Rolls-Royce ever built.

This is a car for the curious, the confident and the bold. Outstanding performance is married with exuberant luxury, all delivered in a style that exudes a sense of glamour and poise. Every aspect of the car's purposeful design creates an alluring sense of the noir and earns the enigmatic name, Wraith.

Intended to push the boundaries of design and engineering, Wraith is the embodiment of Sir Henry Royce's vision: "Take the best that exists and make it better. When it does not exist, design it."

Presenting a perfect marriage of involvement and refinement, Wraith is the only car with the power, style and drama to make the world stand still.

DESIGNED TO BE DRIVEN

Wraith has all the sophistication one would expect from Rolls-Royce, yet it is unashamedly designed and built to perform. A potent 6.6 litre, turbo-charged V12 engine delivers an incredible 624 bhp, powering the car from 0-60 mph in just 4.4 seconds. This seamless surge of energy is effortlessly delivered through the eight-speed automatic transmission.

Clever technology ensures Wraith maintains its poised composure over virtually any surface, while the air suspension system compensates for even the tiniest of movements.

CHALLENGING EXPECTATIONS

While Wraith is both daring and unique, it is still a Rolls-Royce through and through. The principal design statements that set this prestigious marque apart are present in the classic 2:1 proportions of wheel to roof height, the long overhang beyond the back wheels, and the signature rear-hinged coach doors.

Wraith also challenges and pushes Rolls-Royce's aesthetic boundaries. When seen in profile, its elegant fastback design, deeply recessed vertical front grille and twin exhausts give it a powerful, striking silhouette. Even the Spirit of Ecstasy, which is angled further forward in a bold stance, adds to the drama. The combined effect is a car that creates a unique sense of theatre wherever it goes.

MAKE A STATEMENT

Look closely into the paintwork of Wraith and you will see a perfect image of yourself looking back. The flawless finish is the result of layers of high-tech Xirallic® paint and the meticulous workmanship of Rolls-Royce craftspeople. With the two-tone paint option that accentuates the car's bold lines, you can choose to make your Wraith as subtle or as striking as you desire.

Choose from a range of exclusive 21" wheel designs to further personalise your car. Available in painted, polished and part-polished variations, as well as a bi-colour finish to create perfect harmony with the paintwork. Whatever your choice, the self-righting wheel centres will ensure the Rolls-Royce monogram is always correctly displayed.

EVERYTHING IS CONSIDERED

Wraith's coach doors open to reveal the most enticing four-seat Grand Tourer; capable of accommodating the driver, three passengers and their luggage with ease and in ultimate luxury. While the exterior exudes purpose, the sweeping interior lines promise absolute comfort.

A selection of exquisitely hand-crafted veneers, created from one-of-a-kind arcs of wood, allows you to add your own stylistic touch to Wraith. Choose Canadel Panelling to beautifully enhance the interiors, as our master craftspeople gracefully curve this exceptional expanse of open grain veneer around the contours of the coach doors.

Alternatively, select Elegant Piano Black lacquering to finish the veneers. While brushed aluminium introduces a crisp, contemporary edge to the sleek metal fascia.

SENSORY DELIGHT

Within Wraith's interior, every aspect of passenger comfort has been carefully crafted. The deep lambswool rugs underfoot are complemented by the softest and finest natural grain leather upholstery.

Overhead, Wraith continues to delight. Cashmere headlining comes as standard in either Seashell or Black. You can also specify a fixed glass roof to bathe the interior in natural light, or an intricately crafted and unique Starlight Headliner. Up to 1,600 fibre optic lights are hand-woven into the leather at assorted depths and angles, evoking the enchantment of a night sky and with the possibility of mirroring a constellation of your choosing. With a single switch, shift the ambiance from softly lit and mellow to brilliantly intense.

ADVANCED TECHNOLOGY

With its Satellite Aided Transmission, Wraith uses GPS data and its navigation system to predict the road ahead and automatically selects the right gear on the eight-speed transmission. In addition, Active Cruise Control uses a radar to keep track of the cars ahead and will brake automatically to maintain a safe distance, ensuring the smoothest possible ride for both driver and passengers.

For a more informed drive, the intelligent Head Up Display projects critical information in to the natural field of vision. Not only does this lessen eye-strain, it also ensures that the driver's attention can focus on the road ahead.

Cameras offer a 360-degree view around the car for assistance with manoeuvres while, at night, an infrared eye positioned in the front grille is able to detect potential hazards, such as people and animals, up to an impressive 300 metres away. The assisted 'night vision' extends far beyond the headlights' beam and provides the driver with more time than ever before to react to the road ahead.

REFINED PLEASURES

Finely tuned by Rolls-Royce experts, Wraith's eighteen-speaker Bespoke Audio System produces incredibly rich and deep sounds, aided by external microphones that automatically adjust the settings to compensate for exterior noise. Whether you choose the 'studio', 'theatre' or 'larger than live' sensation, high-precision Dirac® technology eliminates loud and quiet spots within the car to produce the smoothest, purest acoustics imaginable. Finally, the distinctively dark speaker grilles and cones add to the sense of theatre, with an exclusive copper-hued grille in the Wraith Inspired by Music that exudes timeless style.

Adding to the levels of sheer convenience provided by Wraith, a Comfort Entry System enables you to lock and unlock your car simply by touching the door handle. The key even stores individual preferences such as seat adjustments, steering wheel position and Head Up Display settings.

You have unprecedented control inside the car too. The Spirit of Ecstasy Rotary Controller lets you manage everything from your journey planner to your address book, with just a swipe of your finger across the touchpad surface.

STEP INTO DARKNESS

An irresistible invitation for the risk-takers and rule-breakers. For those who crave the bolder side of life. This is a twist on the world's most iconic automotive marque.

This is Wraith Black Badge.

The most arresting aesthetic ever to grace a Rolls-Royce. Black Badge is the boldest expression for those who dare to be different.

COMMAND ATTENTION

At rest, Wraith Black Badge has a bewitching aura. In motion, it exudes formidable prowess. Subtle, yet powerful, design features create its bolder edge. Chrome is darkened and paint is deepened. The darkness has taken over.

The sculptured front bumper and dark chrome grille emphasise its muscular presence whilst the 21" carbon fibre composite wheels make a distinctive statement. Wraith's LED lights guide you through the night with the transformed Spirit of Ecstasy, fashioned in a rebellious black, leading the way into the darkness towards undiscovered adventures.

This is a motor car with true purpose and real intent. A motor car that lets your daring side take over.

A DARKER SHADE OF LUXURY

The seductive, deep shades of Black Badge are continued within Wraith's sumptuous interior. Black tones dominate, accentuated by striking accents of colour. The technical fibre fascia – made of aircraft grade aluminium thread, unique in the automotive industry – gives the cabin a darkly refined aesthetic.

Every detail has been meticulously designed to further enhance Wraith's daring attitude and desire to push the limits. The clock and rear seat centre have been adorned with an infinity symbol, a subtle reminder to the driver that anything is possible.

Add to the ambiance and embrace the darkness with an optional Starlight Headliner. Be engulfed in your very own star-filled night sky with your personal stellar scene. With the brightness of each star adjustable to suit your mood, in Black Badge, you control the night.

THE POWER TO PERFORM

Beyond the imposing exterior, energy lies poised. The uprated 6.6 litre V12 engine creates a feeling of endless power and potency. Married to a new gearbox, it delivers more torque and lower ratios that bolster the straight-line performance.

The Black Badge powertrain has been crafted specifically to react intuitively to driver input. The result is sharpened responses. And with enhanced steering and suspension that deliver exceptional contact with the road, this is a Rolls-Royce driving experience like no other. For those who feel the unmistakable pull of adventure, this is a motor car with the performance to dominate the darkness.

INSPIRATION

IS EVERYWHERE

Your Rolls-Royce is the ultimate expression of you. Whatever inspires you – an iconic era, a favourite city, the beauty of nature – our Bespoke team can bring it to life in your car, to reflect your tastes exactly. The only limit is your imagination.

BESPOKE TO YOU

The Rolls-Royce Bespoke programme allows you to create a unique car that articulates your individual sense of style. Our engineers and craftspeople will take care of everything from the smallest details to the biggest statements, bringing your imagination to life.

Commission personalised monogram embroidery in the headrests, treadplates or passenger panel inlays. Express yourself in colour, choosing from a vast palette for everything from the two-tone exterior right down to the interior stitching. You can even have the Spirit of Ecstasy finished to your taste.

And, for a final flourish, contrasting coachlines, embellished with your monogram, can be meticulously hand painted with a brush made from ox and squirrel hair. More than simply a car, this is your canvas.

WRAITH INSPIRED BY...

From the red carpet to the silver screen, the Wraith Inspired By models celebrate the glamorous worlds of music, fashion and film. The finest materials, unrivalled engineering standards and the boundless imaginations of our Bespoke Team set the scene for these head-turning motor cars.

The golden age of cinema is captured in Wraith Inspired By Film. Immerse yourself in the theatre of the motion picture, where a breathtaking 6.6-litre twin-turbo V12 engine delivers a thrilling performance. The striking two-tone silver finish evokes the glamour of the screen. A choice of Anthracite or Seashell leather seats and the cross-banded Macassar Ebony dashboard veneers ooze elegance. While the unique treadplates and clock make this the ultimate car.

FASHION

Haute couture meets high-precision engineering. This fresh take on classic monochrome is all about chic tonal contrasts, sumptuous fabrics and catwalk-quality detailing – with craftsmanship matching the tailoring skills of high fashion labels. Silk-lined door pockets are adorned with a vision of the Spirit of Ecstasy. Interiors can be customised with a choice of three vivid accent colours. And the jewel-like Inspired By Fashion clock casts a pearlescent glow throughout.

WRAITH

INSPIRED BY

MUSIC

The long-standing love affair between Rolls-Royce and the musical industry is rekindled in Wraith Inspired by Music – delivering an unparalleled sensory experience on every level. Copper, the intrinsic element of the world's finest sound systems, establishes the tone. This rich hue extends from the Monotone Lyrical Copper exterior to shimmering copper accents beyond the coach doors. Inside, a bespoke sound system turns this show-stopping model into a private music venue.
