# CUT THE CRAP!

It's a code our generation lives by.  
And if you aren't down with that,  
it's cool.

We like to pick our own tribe anyway.  
The comet's got enough doors and  
enough space for your fam.  
And that's a flex.

Just like us, it's kinda got main  
character energy around town.

It's electric, but not just for woke  
reasons. It legit saves a ton of money.

And the range's good enough for  
all your plans.

Being automatic, there aren't no  
foot-aches in traffic.

Being compact, there aren't no  
headaches while parking.

One look, and it passes the  
vibe-check.

Simply put, the car slaps!

It's packed with everything  
that makes sense for this  
no-nonsense generation.
